PROFESSIONAL SUMMARY

An experienced and highly motivated Frontend Developer with a strong passion for learning and building websites that provide a great user experience.

EXPERIENCE

E-Portfolio | devbycharles.github.io/portfolio/

- Designed, developed, and currently hosting 4 projects using semantic HTML5, CSS3, JavaScript ES6+, and React.
- Engineered projects to be scalable, responsive, multi-platform, and SEO-friendly. Some projects use design assets that were gathered through certain sites to simulate working with a design team.

Sushi Restaurant Website | sushi-online.netlify.app/

- Developed a functioning restaurant website using React to display food items that can be added to the cart for purchase.
- Improved the performance of the website by using React Router and lazy loading web pages that are not initially seen by the user.
- Included responsive and multi-platform support to enable the portfolio to be viewed on any platform and device.

API – IP Address Map | devbycharles.github.io/ip-address-tracker/

- Developed to connect to backend API's with Axios. The APIs used in this project are IPify and LeafletJS.
- Included responsive design to be viewed on multiple different platforms/devices.

EDUCATION

UNIVERSITY OF SOUTHERN CALIFORNIA
B.S. in Business Administration

Graduated in May 2020
